## Tsi Nahóten Karihwanákere No'nenk News Release

### **MCK supports Mohawk Internet Technologies *Memorandum of Understanding***

#### **For immediate release**

(**Kahnawá:ke** – 7, Enniskó:wa/March 2006) The Mohawk Council of Kahnawá:ke (MCK) announced today that it has agreed to support a *Memorandum of Understanding* between Tewatohnhi'saktha/Mohawk Trust and Mohawk Internet Technologies (MIT) to explore the possibility of an Initial Public Offering (IPO).

The IPO is being contemplated in order to raise funds to expand MIT's operations internationally.

The MCK has also agreed to amend the *Kahnawá:ke Gaming Law* to provide exclusivity to MIT as an Internet service provider within Kahnawá:ke's jurisdiction.

"Basically, this is the way that MIT currently operates," said Grand Chief Michael Ahrhihron Delisle, Jr. "By amending the law we are protecting and strengthening our position for the benefit of the collective."

As an Internet service provider, MIT is an undisputed world leader. In order to maintain and build upon its standing as a world leader, it is essential that expansion take place in the very near future.
