MCK Considers Tobacco Option

For immediate release

(Kahnawá:ke – 12, Onerahtókha/April 2007) After concluding its tobacco strategy session, Chief & Council would like to inform the community that it is considering the option of single source distribution for tobacco within the Territory.

The Mohawk Council of Kahnawá:ke (MCK) and its technical team will conduct extensive research regarding this option, and the industry will be involved in the information gathering over the next three weeks. Once this is completed, it will be brought to the Council table for further discussion/action.

“We’ve committed to having this work completed by early May,” said Grand Chief Michael Ahrírhon Delisle, Jr. “The one-source option is looking more and more like the right step to take in regard to the long-term viability of the tobacco industry.”
