Communications Protocol,  
all media requests must be  
arranged through the Public  
Relations / Communications  
Unit*

## Pressure sewer installation on Old Malone Highway

**(Kahnawà:ke – 20, Kenténha/October 2017)** The Capital Unit of the Mohawk Council of Kahnawà:ke would like to inform the Community of the upcoming project to install a new pressure sewer line along the side of the Old Malone Highway. The work for this project is scheduled to begin Monday, October 23, 2017 and last until the end of November 2017.

Residents in the area may be inconvenienced with temporary loss of water, dust and noise from trucks and equipment, detours and temporary road closures. Proper road signalization will be installed to warn of the construction limits. The community will also be notified when a road closure is scheduled.

All private properties that are affected by the work in this area (e.g. driveways, walkways, hedges and/or fences) will be repaired or replaced prior to the completion of the project.

Shown below is a map of the general area. The shaded area indicates where the works will take place.

Your patience throughout this project is greatly appreciated. Please contact the Technical Services Office at 635-1016 if further information is required
