PUBLIC SERVICE ANNOUNCEMENT

Route 132 - S.L.S 12 Sewer Installation

(Kahnawake – 23, Kentenhkó:wa/November 2021)

The Capital Unit of the Mohawk Council of Kahnawà:ke (MCK) would like to inform the Community of the upcoming project to install a Sanitary Sewer Line under the R-132 highway. An outside contractor will be installing the pipe works, scheduled to start on Wednesday, November 24, 2021. The works are expected to be completed Friday, December 3, 2021, weather permitting.

This project will include the installation of a steel casing under the highway. The method used to install the casing will create a loud hammering noise; residents should not be alarmed as this is normal.

Shown below is a map of the general area. The shaded area indicates where the works will take place.

Your patience throughout this project is greatly appreciated. Please contact the Technical Services Office at **450-635-1016** if further information is required.

The MCK reminds the public that these works are subject to change due to weather conditions, operational constraints, or work progression. In case of inclement weather, works will be moved to the following day(s) when the weather provides for suitable working conditions.
