For immediate release

(Kahnawake – 14, Tsothohrhkó:wa/January 2022) The Kahnawà:ke COVID-19 Task Force wishes to inform Kahnawa'kehró:non that spots are still available for your COVID-19 vaccination. Getting your COVID-19 vaccine is highly recommended, and coupled with current public health measures, is your best defense against the virus.

While the number of cases of the Omicron Variant is on the rise, getting the vaccine will help reduce hospitalizations and ease the strain on the already overburdened health care system. It may also reduce the severity of symptoms related to the COVID-19 variants.

Please do your part to protect yourself, your loved ones, and your community by getting your vaccine.
