Tioweró:ton Brook Trout Study Information Session March 11th

(Kahnawake – 9, Enniskó:wa/March 2020)

The Kahnawà:ke Environment Protection Office (KEPO) wishes to invite the community to an Information Session to present the results of the 2019 Tioweró:ton Brook Trout Study on Wednesday, March 11th, beginning at 6pm at the Golden Age Club.

KEPO and Tioweró:ton staff, along with their consultant from Groupe Hemispheres will present the results of last year's Brook Trout study. After the presentation there will be a community feedback session on a proposed Brook Trout Conservation Strategy.

In recent years, the Brook Trout population in Tioweró:ton has been identified as an area of concern. The 2019 survey was completed to assess the health of the population and to develop a conservation strategy. Your feedback is essential to develop an approach that meets the needs of the community.

Please contact the Kahnawà:ke Environment Protection Office at **450-635-0600** or environment.protection@mck.ca for more information.
