COMMUNIQUÉ

Directive 54 – No Household Visits as of December 28th

(Kahnawake – 23, Tsothóhrha/December 2020)

The Kahnawà:ke COVID-19 Task Force wishes to advise the community that due to the current COVID-19 global pandemic and the current state of emergency in Kahnawà:ke, **household visits will NOT be permitted from December 28th until January 31st, 2021.**

The exemptions to this [Directive](#) are as follows:

- Caregivers and babysitters
- Persons living alone requiring visits for mental health and wellness purposes

[Directive 54](#) has been put into effect due to the increased risk of spreading the COVID-19 virus related to gatherings. This Directive aims to protect the health of our elders and those at an increased risk of contracting the virus.

The community is being reminded that the current situation remains dire, and the risk of transmitting the virus is high. We are asking that the community work together to limit the spread during this second wave.
