## Q8 Any additional comments?

Answered: 41 Skipped: 68

## Tioweró:ton Community Consultation

#	RESPONSES	DATE
1	Limit the construction of new cabins. Have family shared cabin. As a Kanehsatakehronon there is no fairness on how the territory is being used by Kahnawakehronon. Kahnawake has more membership, but the lands are owned equally. Kanehsatakehronon we need to protect our rights to these lands as much as Kahnawake. Something needs to be in place to protect our rights as being a smaller community.	2/10/2020 12:56 PM
2	Tioweroton is a territory that is supposed to run on respect of the land and other people. But the respect is gone and there needs to be consequences for people's actions. Also there needs to be a conservation presents to help preserve our ecology.	2/10/2020 10:41 AM
3	People talk about having respect but there is a lack of respect for the people and environment like the kids who sped around stupid fast on bikes risking their health and making spending time outside of your cabin next to impossible because of the dust pollution. Not to mention the bikes racing are loud and disruptive and probably scare the local animals and they make picking berries and walks impossible with my small children	2/10/2020 10:38 AM
4	This survey is leading. Questions are fine, but choices of answers lean towards justifying the need for enforcement and creating a law or some sort of authority for caretakers. No matter what answer you choose, the result action will be for the committee to create a law for enforcement of all the disrespectful things people do. Also, having to choose 3 when I only wanted to choose 2 for two questions is not good for the results. BUT, I understand. Not much hope for people to make decisions based on respect anymore. Too much individualism and lack of respect for the land. Lately because of this I often get sad when I think about Tioweroton.	2/10/2020 10:24 AM
5	In my opinion the major issue is the lack of respect for others. Years ago there was no need for enforcement because nobody touched anything that didn't belong to them. If you did borrow something like firewood from someone's porch you replaced it before you left. That was a common understanding. This no longer exists today. I think proper education on the respect is in order. I also believe there should be consequences for the lack of respect but at the same time I don't agree with full time law enforcement either. There has to be a balance.	2/10/2020 10:15 AM
6	Stop expanding the cabin area	2/10/2020 10:08 AM
7	What happened to building a simple cabin, on blocks, did everyone forget, and then it was never enforced? Today, there are too many 'cabins' that resemble 'homes'. Tioweró:ton is supposed to be a place to get away and relax in nature. Why did we allow this to get out of control!!	2/10/2020 10:06 AM
8	The dust is a major concern during the summer months. The kids drive way to fast back and forth all day with numbers of passengers at one time per bike, there were elders complaining all summer that they can't go on a nice walk to the falls or just down the main road due to this. There has to be some sort of natural spread that can be put on the roads to keep the dust down. Tioweroton should be zero tolerance but you can't tell people that like to sit on their porch and have a drink. The age of drinking is out of hand there. Kids only go there to party because it is a place they will not get caught, that is why I think the caretakers should be allowed to intervene and if they are underage the parents are to be called and they must pick their child up. To have this happen maybe there should be another caretaker located at the entrance going towards JP's/bill Meloche cabin. With the caretakers there it is not enough during the summer months as the population has increased over the years. The caretakers have to start getting a little more strict with the kids recklessly driving around all day/night with vehicles/ 4 wheelers. Example last summer I had my nephew on the bridge at the falls, this girl who was maybe 16 was driving a F150 drunk trying to go over the bridge. We made her back up because she was too close to us but of course she was a thug and started swearing and everything else. Tioweroton used to be a peaceful relaxing place to go to. Now it's a underage party hangout.	2/10/2020 9:43 AM
9	N/A	2/10/2020 9:06 AM
10	Too many people have forgotten what Tioweroton is there for, unfortunately when people lose respect for each other and nature, laws and enforcement are required.	2/10/2020 9:05 AM
11	This is where people should be free to perform their personal, family, clan and community land based ceremonies. So much of our lands have been stolen away that Tioweroton has the only lands left for us to carry on some of our traditions! The land needs to be strong and clean for this. People who use the land without respect for the waters, land, air and all life there need to be educated about the traditional values of those people who brought us here...our ancestors. If	2/9/2020 6:56 PM

## Tioweró:ton Community Consultation

we came from selfish people who had no respect or gratitude for all of creation" we would have died out long ago. We need to educate for the future. There needs to be some limit to people building mansions and then trying to protect them as if they were private property. Tioweroton is almost the last of our common lands. Where will your grandchildren go?

12	The speed and use of vehicles. Making a quite time. Being on the main road we hear vehicles all night long!!!! When you walk people don't slow down or check to see if anyone is coming. The quietness that we had when I was young. Bring back the peacefulness.	2/9/2020 4:17 PM
13	A place that has some structure, but not to lose the essence of what Tioweroton is suppose to be for families. For example: we should be able to walk on the roads without dust pollution.	2/9/2020 12:51 PM
14	Don't send last minute notices of a meeting considering time to make arrangements due to having more than one job, and distances with traffic, and because it is SHARED community, have it IN Tioweró:ton not in Kahnawà:ke all the time.	2/9/2020 9:29 AM
15	There already is a community building up there . Forest fire is a huge threat , there is so much dead brush that tioweroton is a match stick ready to go . Forest management is needed	2/9/2020 8:12 AM
16	Je parle français donc répond y de mon mieux avec se que jy comprenait	2/7/2020 4:25 PM
17	The survey is vague #1 put a time frame for noise i g atvs skidoo's generators this way everyone can enjoy the piece and quiet of our territory #2 as I am from Kanesatake I would like to see more members of my community building without restrictions ( I have witnessed firsthand being discourage from building) The guidelines specify that no boundaries be placed and cabins that have been neglected be torn down and cleaned up at the former owners cost yet within the territory there are buildings that have been left. fence lines and gates erected #4 anytime a meeting is held it is either in Kanesatake or kahnawake and without proper notice ! Why not hold these meetings for our territory on the territory in question and advise the people that have Interest to attend not a day or two before the day of the meeting but more like two weeks be so we can have a voice also have an end to closed door meetings #5 enforcement should be done by the cabin owners as a collective enforcing the guidelines to whomever they invite to our territory I.g. If i bring someone up to enjoy the area it is my responsibility and no one else's to ensure my invites respect and follow the guidelines #6 education, designated land use as well as safety for all PIs make the results of this survey available to our community members so we all have a input on our territory Thank you	2/7/2020 3:36 PM
18	Be fair or split it in half , it is meant to be shared territory and some are greedy and disrespectful to others who try and build a camp there , one camp per family not 2 ,3 or more pre family . Let's do thing right	2/7/2020 2:29 PM
19	Also notable are the constraints of land base VS growing populations.	2/7/2020 2:20 PM
20	I don't go there anymore because of the total disrespect for what tioweró:ton was meant to be used for. Rules were once respected and now theres the attitude of nobody tells me what to do. This is our territory and we need to get attitudes to change in regards to peace quiet place to visit and enjoy without alcohol disrespectful youth and adults.	2/7/2020 1:00 PM
21	It should be a place where we can respect the environment and walk our talk	2/7/2020 12:48 PM
22	Tiowero:ton should be a place for families to enjoy without four wheelers causing loud noises/dust &	2/7/2020 11:21 AM
23	It's sad but we need to treat Tiowero:ton like a campsite, it needs checkpoints at every entry/exit and community members must check in and out. This would eliminate break-ins and vandalism. Caretakers would be informed of who exactly is on the territory in case of emergency, accident, and who to check in on - when needed. It is also a safety issue, in case of fire, the firemen would know if someone is in the cabin or not.	2/7/2020 10:47 AM
24	The territory is way too big for just thee caretakers to cover. There needs to be a regular staff of caretakers who are committed to the preservation of the territory. More staff is needed, properly trained and equiped to handle the situation that may arise in our remote territory.	2/7/2020 10:41 AM
25	Our people should be educated about this land and its history. Medicines and hunting practices must be taken seriously and adhered to by ALL! Respect what we have and protect it for our children and grandchildren and beyond.....	2/7/2020 9:23 AM
26	Trails and paths need to be cut,marked,trimmed. Some trails that have been thrashed by four wheelers should have alternate routes put in place, so people can hike and not have to hike	2/7/2020 9:13 AM

## Tioweró:ton Community Consultation

through knee high mud caused by four wheelers, this may help in assisting those who wish not to have a hard time to go to places in the territory. Also have signs for hikers and be clearly marked so no one gets lost .

27	Add showers in the main building for all to use.	2/7/2020 5:19 AM
28	We need to create laws and/or bylaws for Tioweroton to ensure fair use of the territory and safety of those who go there. People need to stop building mega cabins and taking up more than their allotted space. The land needs to be left as natural as possible so putting a cap on cabin development should be considered - abandoned cabins should be demolished & the lots given to new "owners" rather than continue giving new lots out. Lastly, we definitely need to create clear laws for hunting based on our traditional practices of harvesting only what we need for the year. It's sickening to see people harvest more than one moose when you know one is enough for a family for the season.	2/6/2020 11:51 PM
29	It's no longer safe to walk the roads to the falls. Too much speeding by cars, trucks and ATVs.	2/6/2020 11:19 PM
30	Education is key and the root of many issues. Lack of knowing how to utilize and care for the land results in all the disrespect everyone complains about. We cannot change everyone but we can change the way we look at the land if we provide more education in the ways of understanding the ecosystem. When you learn how to use and live off what it provides, you gain respect for it. People don't listen when you tell them to respect things. But, If we show them How to use it, that will respect will come naturally. It starts young but can begin at any time in your life.	2/6/2020 10:58 PM
31	Paid per use public showers	2/6/2020 7:34 PM
32	Understandably laws and enforcement would not be appreciated by community members but at the same time we are losing a lot without consequences, going up there should be fair for every community member aswell	2/6/2020 6:19 PM
33	Size restrictions on cabins. It's ridiculous!	2/6/2020 5:59 PM
34	Adults and children need to be educated on how to be a respectful driver. The problem is not the offroad vehicles, its the way people are driving them and the parents not being held accountable for their children. Also it seems that people don't seem to have a limit to how many fish they will catch at the lakes, take some for meals but 1 person catching 40 trout in 1 weekend is not cool. Maybe more monitoring of the lakes for that and also for the garbage that everyone leaves :( a sign in and sign out book wouldnt hurt also, especially to know who is up at the lakes.	2/6/2020 5:16 PM
35	Too many 4x4s and trucks. It's supposed to be like camping/hunting yet everyones got huge houses and loud machines. Kids drinking and driving around all day/night dusting the place out all summer long.	2/6/2020 5:08 PM
36	Education is important. If people are aware of how they should be acting, they're more likely to act that way. Then enforcement may not have to be as a big a focus.	2/6/2020 4:57 PM
37	Preservation before exploitation. Keep our indigenous connection to Mother Earth n all that creator shared with us.	2/6/2020 4:55 PM
38	A glitch with your number 5 comment. Also, more details on what a gated area means. Would have liked to pick that but not sure it can really be done	2/6/2020 4:54 PM
39	Caretakers need to be more Present, been there3 times this winter for over night stay, only saw 1 caretaker at the front, never anywhere else, more presents, less break ins and whoever is plowing the road should stop opening it up so big, it's not kahnowake and people need to understand that, it should only be plowed enough for a vehicle ,	2/6/2020 4:30 PM
40	Motorized vehicles are killing the territory. That's why I don't go - it isn't like it used to be and that has to change. It is also owned jointly by Kanusatake and Kahnawake, and Kahnawake shouldn't push its weight around just because their population is bigger.	2/6/2020 4:03 PM
41	people should not be allowed to do whatever the please on/in Tiowero:ton, those who do should receive banishment for preset time-frames depending on the level of hard they pose to the area.	2/6/2020 4:00 PM
